食品深加工（加热&冻结）设备

FOOD DEEP PROCESSING (HEATING&FREEZING) EQUIPMENT

狼王科技

WOLFKING FOODTECH

江苏狼王机械科技有限公司主要从事食品加热和冻结设备的研发和制造，同时还提供一站式整体解决方案。团队主要成员均拥有25 年以上从业经历，先后为国内外2000 多家客户提供产品和服务，产品遍布于包括中国，俄罗斯，美国，印度，澳大利亚，东南亚，中南美等在内的全球四十多个国家和地区。长期的耕耘，让我们对行业更“懂”！关注每一位客户的需求，坚持精益求精的工匠精神，让客户得到满意的体验。

Jiangsu Wolfking Foodtech Co., Ltd. is mainly engaged in the research and manufacture of food heating and freezing equipment, and also provides a one-stop total solution. The main members of the team have more than 25 years of experience. They have provided products and services to more than 2,000 customers at home and abroad. Products are distributed in more than 40 countries and regions in the world including China, Russia, United States, India, Australia, Southeast Asia, Central and South America. More than 25 years’ long-standing professional team, well established food industry network lead us fully aware of industry demands. Pay attention to the needs of each customer, adhere to the spirit of craftsmanship, and let customers get a satisfactory experience.

WOLFKING

食品深加工设备
加热&冻结

油炸机系列:
- 导热油油炸机
- 电加热油炸机

蒸烤机系列:
- 隧道蒸烤机
- 螺旋蒸烤机

螺旋速冻机系列:
- 低张紧螺旋速冻机
- 自堆式螺旋速冻机
- 直驱式螺旋速冻机

隧道速冻机系列:
- 冲击式隧道速冻机
- 网带隧道速冻机
- 板带隧道速冻机
- 盐水速冻机
- 流态化速冻机

平板冻结设备:
- 立式平板冻结设备
- 卧式平板冻结设备

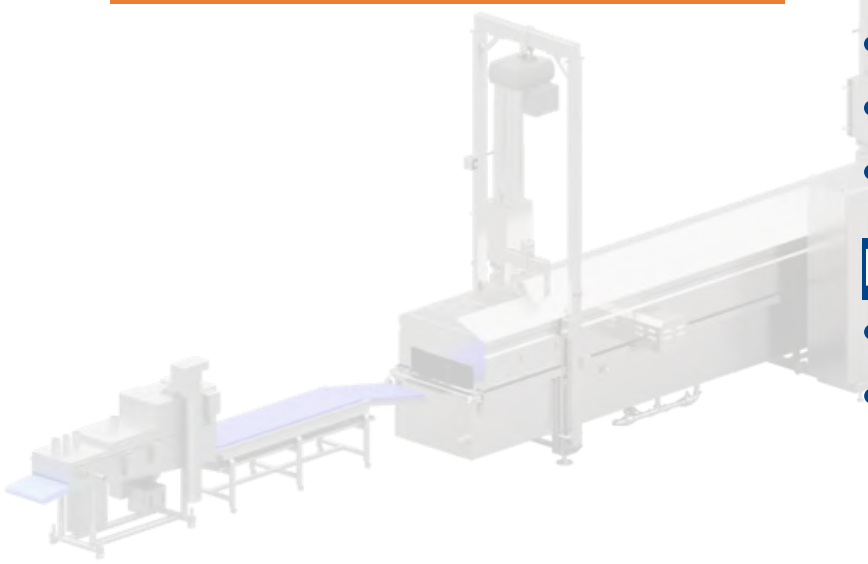

整体解决方案:
- 制冷机组
- 氟利昂机组
- 氨机组
- CO2机组
- 整体工艺设计

WOLFKING

FOOD DEEP PROCESSING EQUIPMENT
HEATING&FREEZING

FRYER SERIES:
- Thermal oil heating fryer
- Electric heating fryer

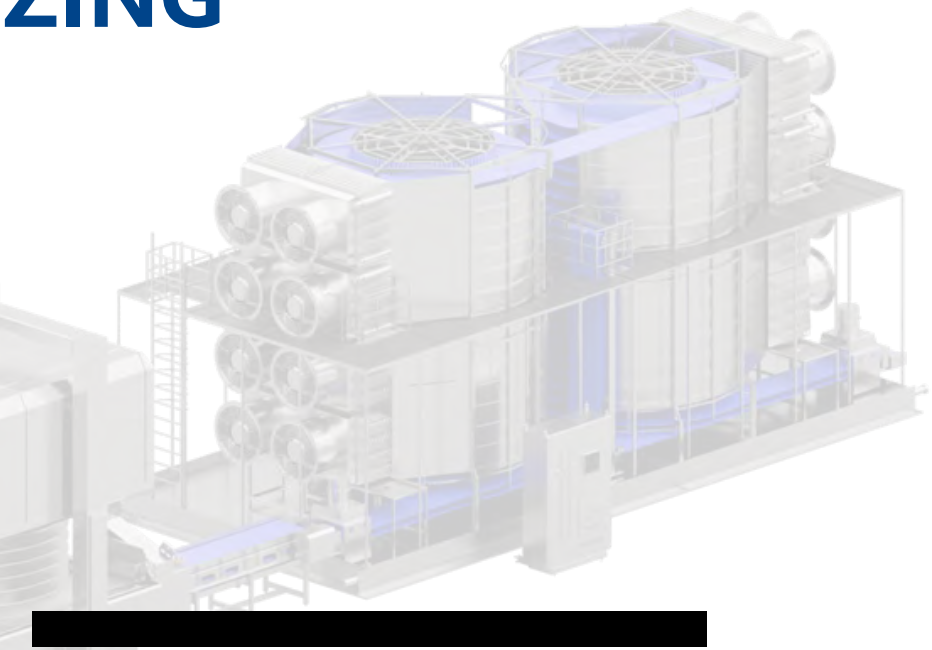

OVEN SERIES:
- Linear oven
- Spiral oven

SPIRAL FREEZER SERIES:
- Low tension spiral freezer
- Self-stacking spiral freezer
- Direct drive spiral freezer

TUNNEL FREEZER SERIES:
- Impingement tunnel freezer
- Mesh belt tunnel freezer
- Solid belt tunnel freezer
- Brine freezer
- Fluidized IQF Freezer

PLATE FREEZER SERIES:
- Vertical plate freezer
- Horizontal plate freezer

TOTAL SOLUTION:
- Refrigeration system
- Freon refrigeration system
- Ammonia refrigeration system
- CO2 refrigeration system
- Whole process design

WOLFKING

油炸机 FRYER

狼王油炸机采用模块化设计，可选长度从4米到10米，宽度450、650、800和1050毫米。热交换器提供高效的加热能力，保证快速均匀地加热。油炸的产品，其色泽诱人、口感浓郁且质地完美。狼王将其创新的油炸知识充分融入其中，可生产不同产量、始终优质的产品。从面包屑到天妇罗浆，任何类型的裹涂产品均适用。

Wolfking fryer is a modular fryer available in lengths from 4 to 8 meters, and in widths of 450, 650, 800 and 1050 mm. The heat exchanger delivers the highest heating capacity in the industry, and guarantees fast and uniform heating. Wolfking fryer produces a beautifully fried end product with an attractive color, enhanced taste and perfect texture. Wolfking has used all its innovative knowledge of frying in the fryer for the production of low and high volumes of consistent top quality products. It is suitable for products with all types of coating, varying from crumb up to tempura.

油炸机 FRYER

WOLFKING

隧道蒸烤机 LINEAR OVEN

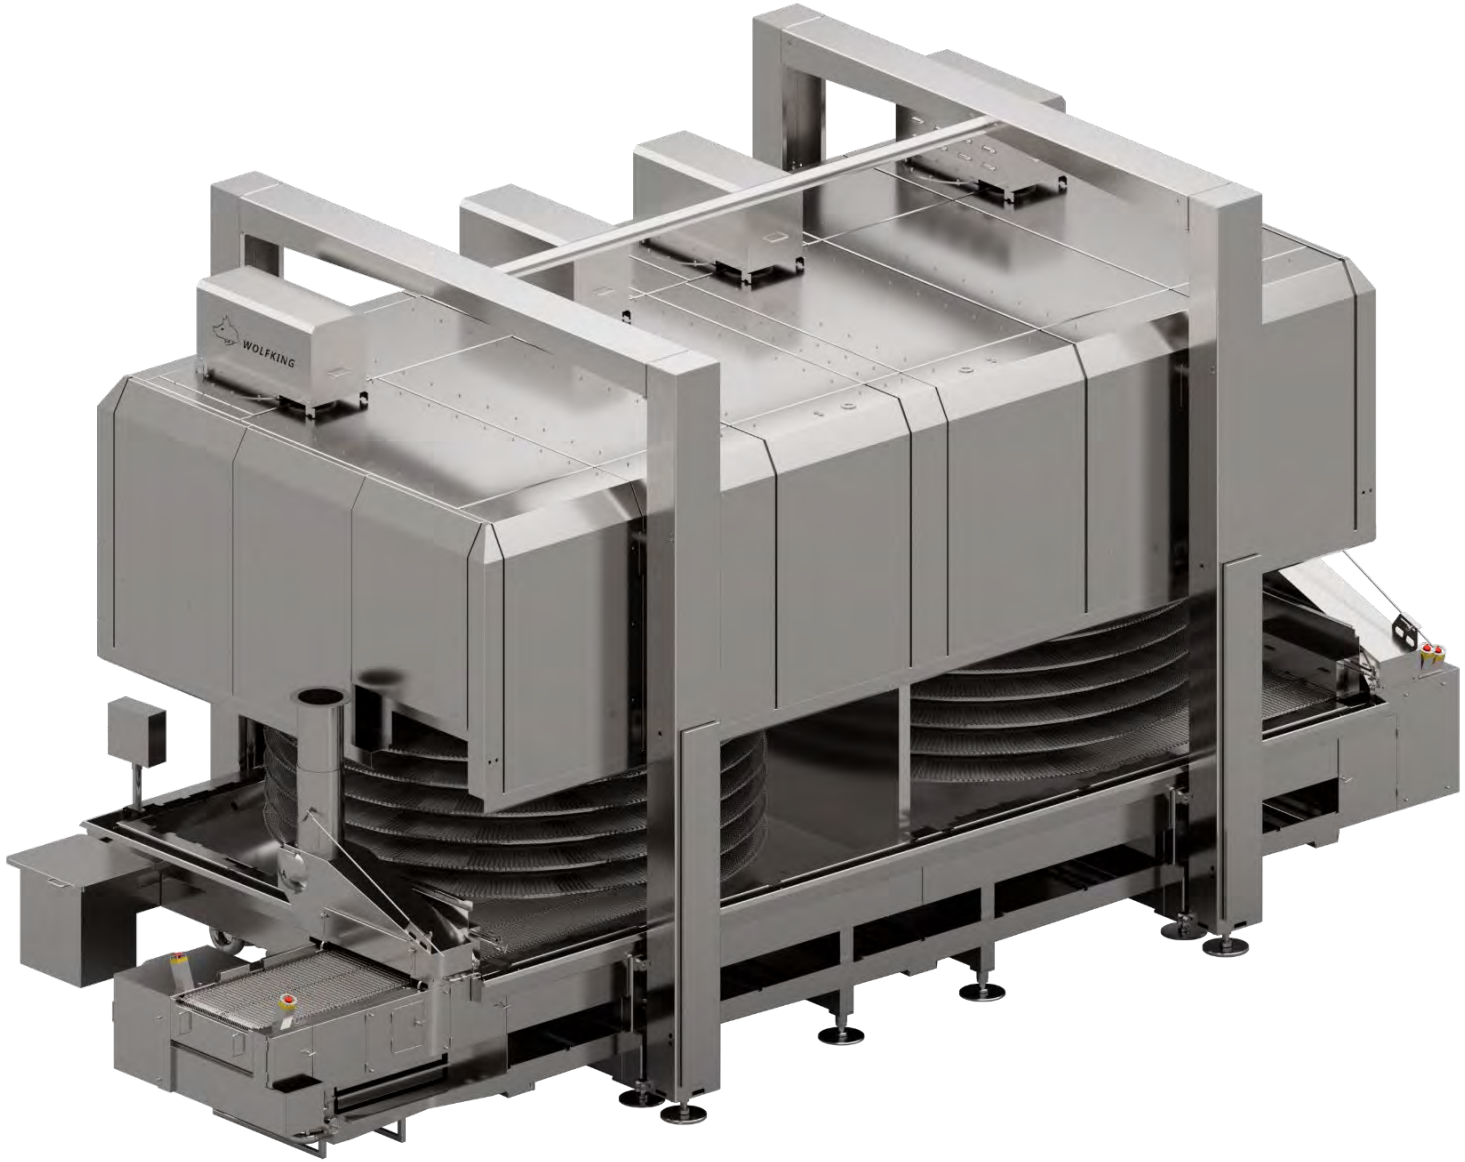

蒸烤机以欧洲先进设备为标杆设计和制造，体现了均匀性、多功能性、简单易用性和可靠性。蒸烤机主要用于生产蒸制、煮制和烤制的产品，保证产品的生产效率和产品外型的美观。可根据不同产能需求，提供多种规格、型号以供选择。

Hot air steam cooking oven is designed and manufactured with the European advanced equipment for benchmarking. It embodies uniformity, versatility, simplicity and ease of use and reliability. Hot air steam cooking tunnel is mainly used for producing steamed, cooked and roasted products with a high yield and attractive appearance. A variety of models can be provided in accordance with the capacity requirements.

WOLFKING

螺旋蒸烤机
SPIRAL OVEN

狼王螺旋蒸烤机以欧洲先进设备为标杆设计和制造，体现了均匀性、多功能性、简单易用性和可靠性。主要用于生产蒸制、烤制和蒸烤的产品，保证产品的生产效率和产品外形的美观。

Wolfking Spiral oven is designed and manufactured with European advanced equipment as the benchmark, and embodies uniformity, versatility, ease of use and reliability. mainly used to produce steamed, cooked and roasted products to ensure the production efficiency and the beautiful appearance of the products.

整机模块化设计
Modular design of the whole machine

•以双螺旋塔架为基础，通过附加功能性部件，实现蒸、烤等多种产品要求；
It can achieve various product requirements such as steaming, roasting and cooking, based on the double spiral tower and through additional functional components,

•通过使用先进的设计软件，搭建了温度数学模型，保证气流控制效果最佳，温度偏差最小；
Built a temperature mathematical model through the use of advanced design software, to ensure the best airflow control effect and the smallest temperature deviation;

•将加热的三要素，即对流、传导、辐射完美融合，能效最大；
The three elements of heating, namely convection, conduction and radiation, are perfectly integrated to maximize energy efficiency;

加热系统
Heating System

• 采用进口品牌阀件，精度高，使用可靠；
Using imported brand valve parts, with high precision and reliable use;

• 露点传感器免维护，独立可调最高至 98℃/208F；
Maintenance-free dew point sensor, independently adjustable up to 98℃/208F;

• 烹饪温度可以调整到最多200°C/392°F；
Cooking temperature can be adjusted up to 200°C/392°F;

• 换热器采用高防腐性能的材料制成，确保使用安全。
The heat exchanger is made of materials with high anti-corrosion properties to ensure safe use.

集成多项优点和技术
Integrate multiple advantages and technologies

使用导流板优化热量分配合，既能加工大众化的产品，也能加工特色产品；

Using the deflector to optimize the heat distribution, to process both popular products and special products

对两个相对独立区域的蒸烤条件的分区控制，使产品的嫩度、口感、出品率达到均衡；

Partition control of the steaming and roasting conditions in two relatively independent areas, to balance the tenderness, taste and yield of the product;

双螺旋塔结构，平进平出，在有限的空间产能最大；

Double spiral tower structure, same level in and out, with maximum production capacity in limited space;

通过水封对机器密封，保温节能。

The machine is sealed by water seal, for thermal insulation and energy saving.

结构特点Structural features

控制系统 Control System

• 采用PLC程序全自动控制，触摸屏显示的操作系统，并可通过网络实现远程控制；
Adopt PLC program automatic control, touch screen display operating system, and remote control through the network;

• 对蒸烤过程中的温度、露点、空气循环速度、蒸烤时间进行控制，并可将常用参数按菜单形式存储；
Control the temperature, dew point, air circulation speed, and steaming time during the steaming and roasting process, and can store common parameters in the form of menus;

• 对双转毂同步驱动控制，实现平稳传动；
Synchronous drive control of double spiral to achieve smooth transmission;

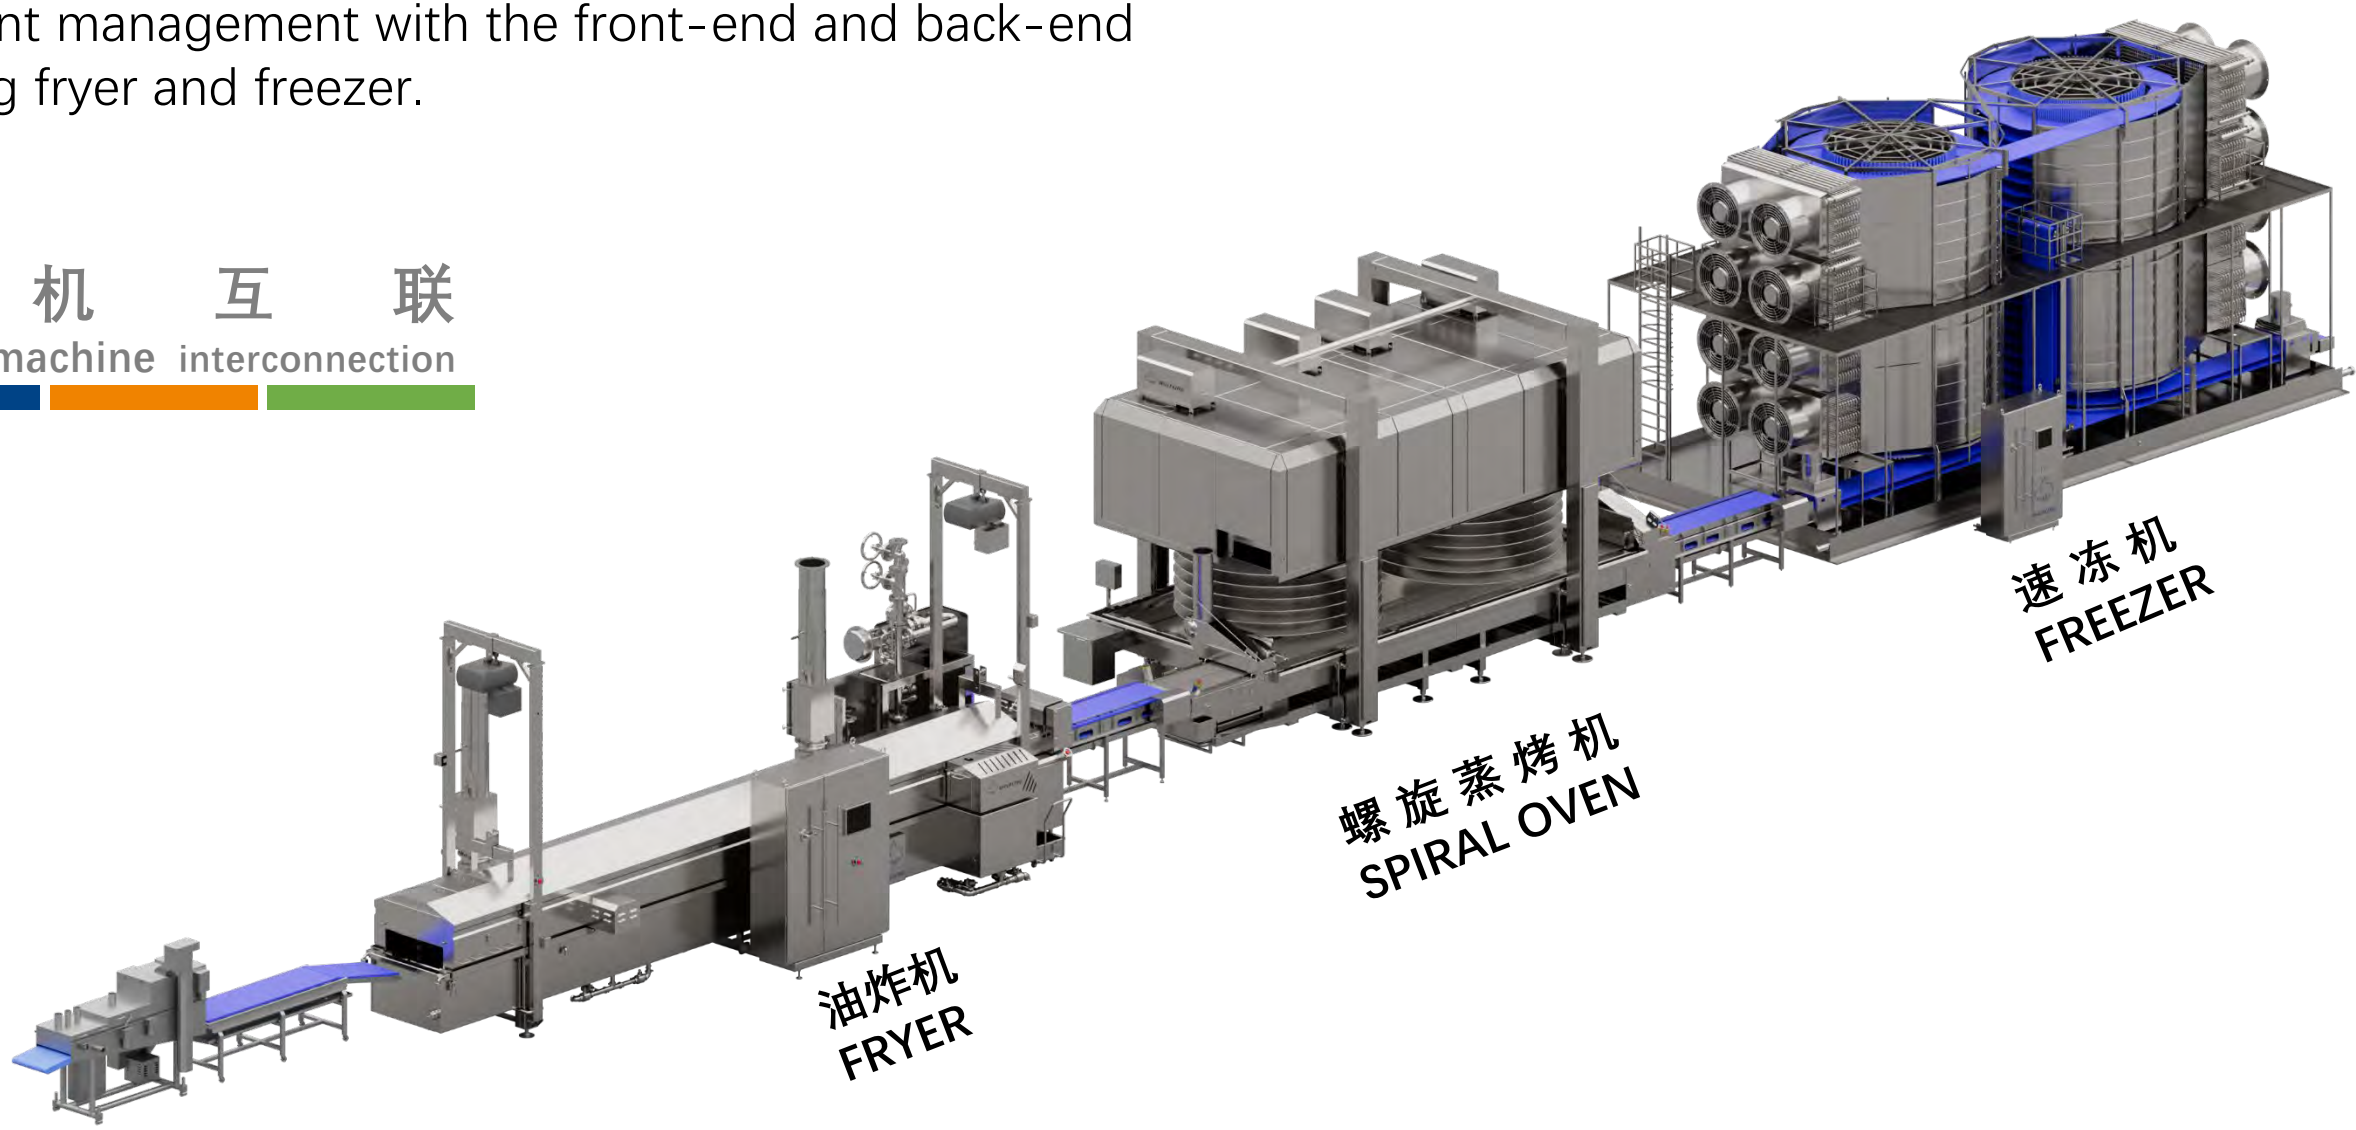

可与IoT等高等级管理系统兼容，实现与前后端狼王油炸机和速冻机相互之间的信息交换、协同控制和智能管理。

It is compatible with high-level management systems such as IoT, and realizes information exchange, collaborative control and intelligent management with the front-end and back-end Wolfking fryer and freezer.

网 带
BELT

独特的自堆式网带

- 自堆式网带，封闭的冷冻区
- 设计先进，侧链坚固
- 改进联锁，提高运行可靠性
- 磨损更少，使用寿命更长

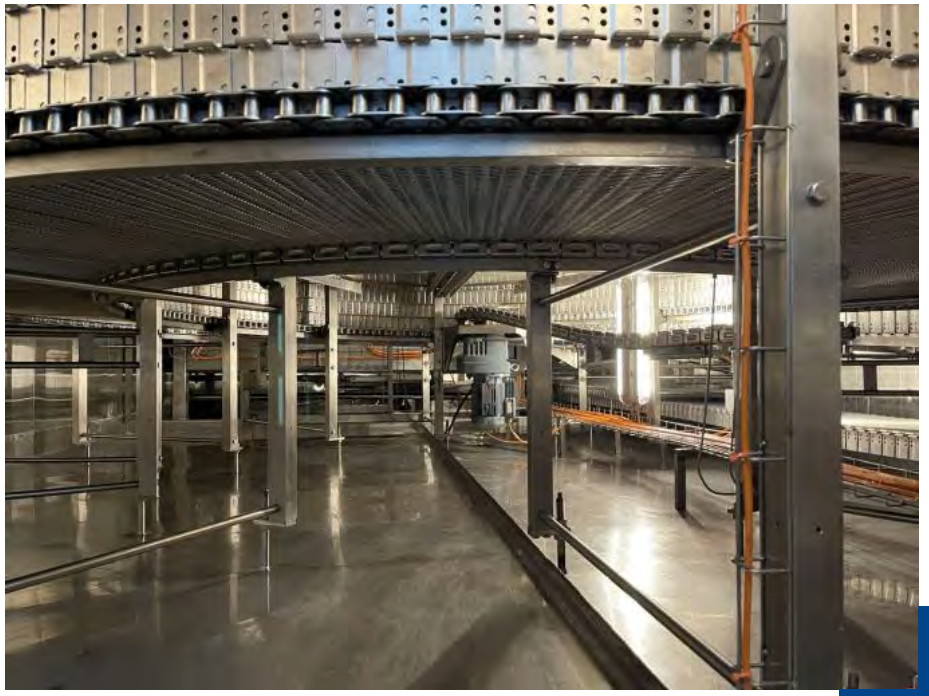

Unique Self-stacking belt

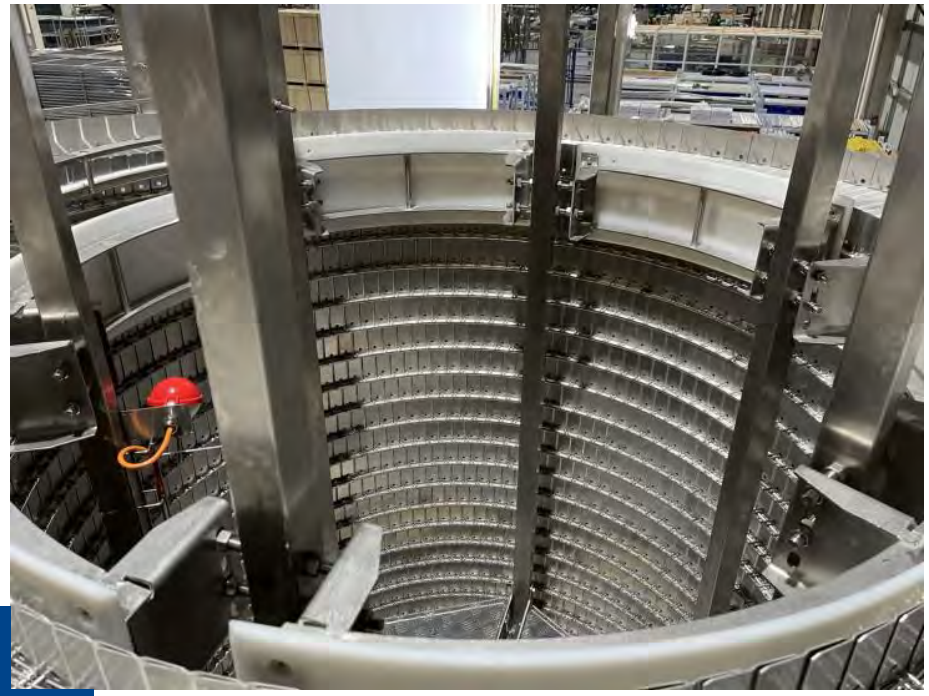

- Self-stacking belt with closed freezing zone
- Advanced belt design with stronger side-links
- Highest reliability through improved interlocking
- Less wear and increased life

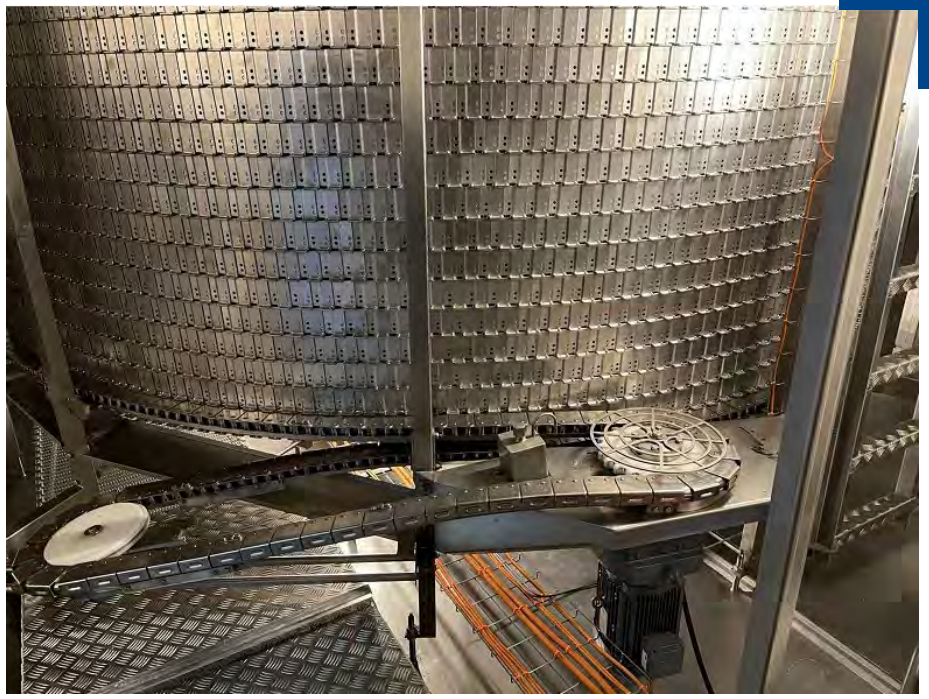

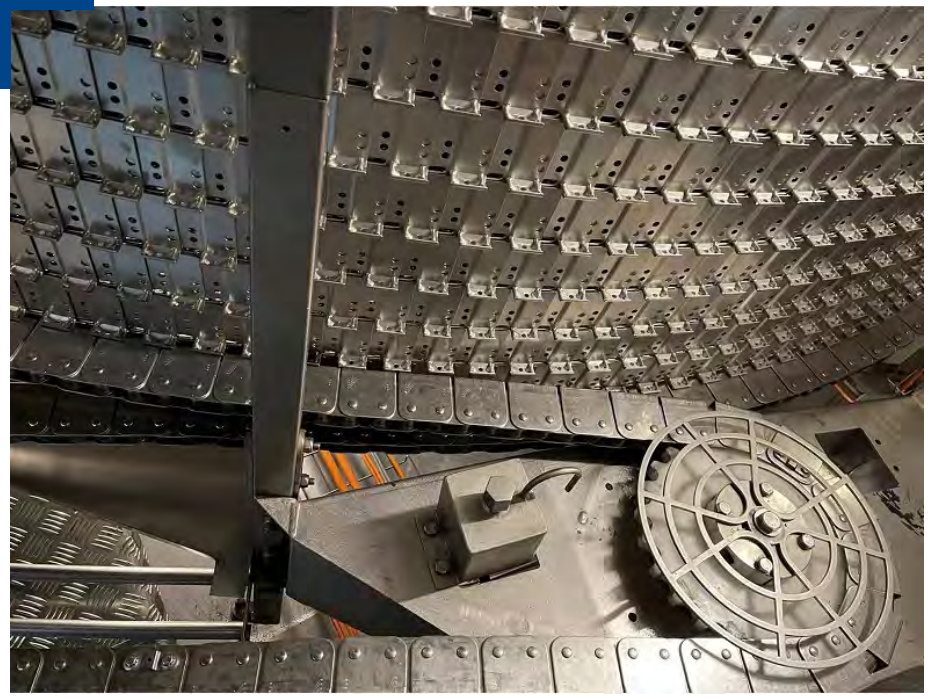

WOLFKING

低 张 紧 螺 旋 速 冻 机
LOW-TENSION SPIRAL FREEZER

- ✓ Benchmarking European quality, core technology comes from Europe
- ✓ High efficiency and energy saving compact structure
- ✓ Easy to clean
- ✓ High degree of automation

气流设计
UNIQUE AIRFLOW

WOLFKING

- Symmetrical and circulative air flow
  - Minimize product weight loss
    - Lower cold loss, improve freezing efficiency
      - Easy access for operator to check freezer any time
        - Lining air flue prevents air from blowing on panel directly, enhances insulation performance

正直	Honesty	尊重	Win-win
Integrity	诚信	Respect	共赢

作为国内高端加热和冻结设备制造商和唯一能提供加热冻结一体化解决方案供应商，我们始终坚信“产品质量是企业的生命”，设备对标欧洲，高标准高要求，坚持“创新驱动、品质至上、智能制造、精益求精”，致力于打造一流产品。狼王科技希望与行业内企业加强沟通联系，融合共进，共谋发展。

As a domestic high-end heating and freezing equipment manufacturer and the only supplier of integrated heating and freezing solutions, we always believe that "product quality is the life of an enterprise", benchmarking Europe, high standards and high requirements, and insisting on "innovation driven, quality first , intelligent manufacturing, keep improving" , committed to creating first-class products. Wolfking Foodtech hopes to strengthen communication and contact with enterprises in the industry, integrate and advance together, and seek common development.
